

FLORIDA SOCIETY FOR CLINICAL LABORATORY SCIENCE, INC.

FSCLS 2018 Spring Symposium

March 09, 2018, 8:00 am – 4:30 pm

Nemours Children Hospital

The laboratory professionals of the Florida Society for Clinical Laboratory Science invite you, our colleagues in clinical laboratory medicine, to participate and support us at our annual FSCLS Spring Symposium in March 09, 2018. As partners in our profession, we extend the opportunity to interact with clinical laboratory professionals throughout Florida. The annual FSCLS Spring Symposium attracts participants from all levels of the clinical laboratory profession: managers, department supervisors, medical laboratory scientists and technicians as well as students, who represent our future and your future.

I have enclosed a registration form to reserve your spot at our symposium. Your support will be recognized in our official program as well as on the day of the seminar. As partners in health care, we need to join forces to work toward our common goal of quality health care by providing continuing education to our laboratory professionals.

Thank you for your commitment to our profession, and support of FSCLS educational and professional goals. If you have any questions, please feel free to contact Heather McNasby.

Sincerely,

Heather McNasby
FSCLS President
