Talking the Talk: Overcoming the Barriers of Productive Communication

Rick Import, Whitehat Communications

- Highlights leader communication for POCCs and essential skills for dealing with anyone.
- Focuses on techniques to help understand the perspectives of the people we communicate with *before* we shape our responses.
- Includes interactive role plays that will demonstrate listening styles that promote understanding in order to elicit the most appropriate and productive response.

Following the presentation, a panel of POCCs will address communication issues and challenges received from the audience as well as selected from a survey sent to POCCs.
