*IQCP: Where do we go from here?*

Marcia L. Zucker, Ph.D.

June 19, 2014

DuPont Hospital for Children  
Wilmington, DE

Hosted by:

Adonica Wilson

Special Thanks to:

Informatics Solutions

## SPEAKER

### **Marcia L. Zucker, Ph.D.- President, ZIVD, LLC**

Marcia Zucker is an independent consultant specializing in all aspects of point of care diagnostics. She is an active contributor to the scientific literature, lectures both nationally and internationally on point of care applications and maintains affiliations with several professional associations. Marcia is currently the chair of the AACC Critical and Point of Care Testing Division and is active in the National Academy of Clinical Biochemists (NACB), the CLSI Consensus Committee for Point-of-Care Testing and CLSI guidelines development working groups.

#### ***IQCP: Where do we go from here?***

In 2011, the Centers for Medicare and Medicaid Services (CMS) announced the intention to replace current “Equivalent QC” processes with a risk management based approach to Quality Control termed “IQCP”, based upon the CLSI guideline EP-23, Laboratory Quality Control Based on Risk Management. This session will provide an overview on the evolution of Quality Control requirements for CLIA compliance and the steps required to transition from Equivalent QC to IQCP. It will be followed by a workshop where breakout groups will select a specific device and begin the processes necessary to develop an IQCP.

## AGENDA
